## PLASTICS

### MELAMINE

Outperforms traditional ceramic and proven to be 4x stronger. Chip and break resistant, ideal for event caterers. A favourite for waiting staff as look like ceramic but with half the weight.

### POLYSTYRENE (PS)

100% recyclable. Our range of PS products are reusable and not intended for single use. Our most popular platter range for caterers who need a reliable solution. Strong, lightweight, ideal for canapes and outdoor events. Event caterers number one choice of platter.

[WWW.DALEBROOK.COM/PRODUCT-CARE](http://WWW.DALEBROOK.COM/PRODUCT-CARE)

There is a common misperception that plastics use a large amount of the world's petroleum. Less than 4% of the world's oil production goes to produce all types of plastics. PET accounts for less than 1/2 of 1%. PET is fully recyclable, it's a highly sustainable material. Every time a PET container is recycled, its petroleum feedstocks can be recaptured and reused.\*

### POLYETHYLENE TEREPHTHALATE (PET)

The perfect material for lids. PET is the most widely recycled plastic in the world. Prized for its strength, thermo-stability, and transparency, PET is a popular choice for packaging. PET is also inexpensive, lightweight, resealable, shatter-resistant and recyclable.

### PINEWOOD

Completely biodegradable and compostable. So if you are looking for an all-natural way to serve side dishes that will leave a lasting impression without lasting in a landfill for years to come, look no further.

CURRENT SINGLE-USE ISSUES	DALEBROOK SOLUTION
Single-use packaging is expensive and results in large amount of waste.	HU cuts down the cost of waste management, transportation, packaging.
Cardboard or plastic take away boxes do not keep the food warm.	Melamine is the perfect material for food use as it has a highly thermal insulation property.
Large storage space is needed to store single-use packaging.	HU is perfectly stackable with or without a lid and saves storage space.
Single-use boxes have a high cost due to transportation	Fewer deliveries: With HU in circulation, you no longer require constant deliveries of disposable stock. Helping reduce pollution.

**HUNGER**

HU's significant purpose is to feed people and rid them of hunger. At the same time, creating engagement and focus to their mealtimes. Eating with your eyes is undoubtedly true, but you still need dinnerware that can keep up with your work lifestyle.
