

A close-up photograph of a bartender's hands, heavily tattooed, stirring a drink in a glass with a gold bar spoon. The drink is a reddish-brown color, possibly whiskey or a cocktail, and is served in a clear, textured glass. The background is blurred, showing a bar setting. The lighting is warm and focused on the hands and the glass.

THE  
FINISHING  
TOUCH

FOODSERVICE COLLECTION 2026

# THE FINISHING TOUCH

## WHAT IS NEW?

---

In this edition, you'll discover exciting new additions to our wine collection, including the Carré Plus range and the beautifully designed Niveau Tumbler.

For cocktails, discover:

- Classic Bar, a complete range that covers all your cocktail essentials.
- Virtue, a minimalist design combined with exceptional durability, perfect for modern bars.
- Expert Coupe, elegant and refined, ideal for sophisticated cocktails and stylish presentations.
- Glow, versatile and distinctive, designed for Gin and a variety of cocktails.

Additionally, we've introduced a new section within the cocktail spread, organizing glassware by category making it easier to navigate and find the perfect glass for every style – from DOFs to Martinis, Coupes, and more.

Take a moment to explore the catalog and discover all the new possibilities we've prepared for you.

## **PROUDLY MADE IN EUROPE**

We take immense pride in our European production heritage. Leerdam Crisal Glass (LCGlass) has been shaping the history of glass in Europe since the 18th century, with roots in Leerdam, the Netherlands, and Marinha Grande, Portugal. Our organisation unites Northern and Southern Europe, embracing diversity and fostering innovation. We challenge each other to innovate and improve daily.

Our products are meticulously designed and manufactured in Europe, ensuring the highest standards of quality and innovation, with a strong focus on environmental and social concerns. We are committed to sustainability, using energy-efficient furnaces and green energy wherever possible.

For 250 years, we have been designing, producing, and selling glassware under the brand Royal Leerdam for consumers and ONIS for professionals. Our glassware is found in restaurants, bars, and the cosiest homes worldwide. We dedicate our day-to-day business to those looking for quality and originality, believing in the power of local production to create sustainable, high-quality goods that stand the test of time.

## WHAT WE ARE PROUD OF:

**100% Recyclable Products:** Our products are completely recyclable without compromising quality.

**Food-safe Glassware:** Our glassware is 100% food-safe and environmentally friendly.

**Cullet Reuse:** Each new glass starts with 20% to 50% of our own pre-consumer recycled glass (cullet), reducing our environmental footprint.

**Decarbonization Research:** We're actively researching decarbonization methods like electrification and the use of hydrogen.

**Eco-Conscious Manufacturing:** For years, we have been leading in eco-friendly manufacturing, by implementing the most sustainable furnaces in the industry in both production units.

**Cutting waste and preserving resources:** From our product packaging to catalogues and leaflets, we are now transitioning to using stands and displays made of compressed cardboard, which can be fully recycled after use.

**Innovative Repurpose cycling:** By repurposing existing molds, we give discontinued products a new life cycle and adapt them to current market trends.

**Environmental Collaboration:** We collaborate closely with national environmental and waste entities to promote recycling and upcycling.

**Paperless Operations:** Minimizing paper usage through digitalization of all our processes.

**Diversity and Social Justice:** We celebrate diversity, support racial equality, and advocate for social justice.

**Community Support:** We support various organizations through monetary donations and in-kind product contributions.

**Sharing is caring:** We welcome local communities to visit our plants and learn about the amazing glass production process; we share the best we make.

### GLASS. A CLEAR CHOICE.

Recycling has always been at the heart of our business! We aim to produce 100% recyclable glass products with zero impact on the environment, assuring that the next generations can live in a better world. We do this by applying sustainable processes throughout the organization and supporting social, economic, and cultural progress in the communities where we live and work.

Scan for more info:

## WHAT SETS US APART

The product is designed with a conical shape to ensure an optimal and stable fit with standard Boston Shakers. It benefits from Xtratuff treatment which provides increased resistance to chipping and impact.

The product is designed with the ideal internal space to hold popular clear ice shapes\*, from large cubes and spheres to elongated spears. This ensures optimal chilling with minimal dilution, making it perfect for premium cocktail service.

The product has an elegant thin yet robust stem. Proof that elegance can go hand in hand with sturdiness.

Glassware designed to bring out maximum aroma and flavor for increased quality perception in serves.

The product has a very fine polished rim for an elegant look & feel and refined drinking experience.

The product is designed to be stacked for space saving purposes.

This special thermal after-process strengthens the upper portion of the glass, the area most vulnerable to breakage. It increases the resistance to thermal and mechanical shock which results in remarkably durable glassware with prolonged service life.

The colour is embedded in the mass of the glass during its production, and not applied by an after-process, and therefore fully resistant to dishwashing and scratching.

In the ONIS collection, we can find the most iconic glasses, with a timeless and striking design that many know only by the silhouette, such as ICON, Flashback and SPKSY.

The Glassology Contest challenges professionals working in the Drinks Industry, to develop and create their ultimate glassware design. As a result of that, some of our product ranges find their roots in this competition, including: The Gats, 1924, the Tulip Punch Bowl and Divergence.

## XTRATUFF

ONIS' Xtratuff treatment is a super strengthening thermal after-process for "pressed" tumblers.

The Xtratuff process is only performed on the upper third of the glass, which increases its resistance to thermal and mechanical shock.

By treating this upper portion at a lower temperature than tempering, you put less stress on the glass. This has a positive effect on how the glass breaks and also improves its overall durability.

Video here:

## EMBOSSMENT

---

### ONIS EUROPE

Proudly produced in Europe, our tumblers will hold the distinctive ONIS EUROPE at their bottom. This stamp symbolizes our dedication to design excellence and European quality.

### ONIS XTRATUFF

Our XTRATUFF glasses will feature, the XTRATUFF signature at their bottom. This distinctive detail ensures you can always identify the exceptional super-strengthening thermal after-process applied to the upper part of the “pressed” tumblers.

## EMBOSSMENT

---

### ONIS FOOTPLATE EMBOSSMENT

Discover the signature touch of ONIS logo added to selected stemware, making it distinctly ours. This unique detail reflects our firm commitment to quality and style.

The Glassology Contest challenges professionals from the Drinks Industry to develop an original glassware design that offers the ultimate drinking experience for high-level guests. They are given the opportunity to come-up with a glass shape that elevates a reinvented cocktail or their newest boozy creation.

The winner earns global recognition, as his design is taken into production to be sold by ONIS, all over the world. The cooperation with us continues after the contest, as the winner is named Glassology ambassador in bar shows and cocktail events and will be part of the jury of the next edition.

# GLASS HANDLING GUIDE

## WHY GLASSWARE BREAKS

Glassware is one of the most important tools used in the hospitality industry. It is also one of the hardest materials around, yet under certain conditions it can also be fragile. The number one reason for glass breakage is improper handling. This guide presents you and your staff with insights into how to minimize breakage through proper handling of your glassware. By applying these tips you can save 20-30% on glassware costs.

## THERMAL SHOCK

Glass holds temperature, and a rapid change in temperature can cause enough stress to result in breakage. The main moments when thermal shock loss can occur are in the dishwashing cycle and when preparing drinks. To minimize loss always allow glasses to reach room temperature before and after they are washed and pre heat glasses that will hold warm beverages.

## MECHANICAL SHOCK

Mechanical shock in glassware is the direct result of contact with another object, such as a spoon, a beer tap, another glass, or a piece of china. This kind of contact can cause a minute abrasion, invisible to the eye, but a source of weakness in the glass, making it more susceptible to breakage from impact or thermal shock.

French

Portuguese

Italian

Bulgarian

Arabic

### PREPARATION

Re-stock glassware to be prepared for rush periods.

Use plastic scoops to pour ice.

Avoid using metal tools when preparing drinks. Never hit the bottom or sides of the glass. Instead, stir gently to prevent cracks in the glass.

Never let a glass touch the tap or dispenser.

Pre-heat glasses that will hold warm beverages.

### SERVICE

Never carry glasses in bouquets.

Bottles should not touch glasses when pouring.

Remove glasses that are no longer in use from the table.

Glasses should not touch each other on trays.

### WASHING AND CLEANING

Wash before first use.

Check the temperature of the dishwasher rinsing and drying cycles.

Remove damaged or abraded glassware from service (damaged glass may break in the dishwasher).

Use the correct rack for the glasses you are washing.

Hold stemware by the stem (not foot) when polishing.

Remove ice from glasses as quickly as possible (to avoid thermal shock).

Check the temperature of the water regularly.

Sort items in bus bins and trays (do not overload them).

Never put cutlery or other objects inside glasses.

### STORAGE

Store glasses in correct compartmentalized racks or boxes.

Only stack glasses which are designed for this.

Glasses in overhead racks should not touch.

Allow glasses time to cool before handling them.

# ABOUT OUR PACKAGING

We have implemented eco-friendly packaging solutions, such as recycled cardboard materials and used a reduced number of inks. Designed to be easily recycled after use, reducing waste and conserving resources.

# SLEEK & SIMPLE

A GLOBAL SHIFT  
TOWARD SIMPLICITY

## 4 STEPS TO GET INTO THE TREND

The “Supercharged Simplicity” trend is still making waves in the bar industry. This trend emphasizes minimalism, quality, and functionality. It aligns perfectly with the growing popularity of minimalist cocktails: two or three ingredients, crystal-clear ice, minimal garnishes, and clean-design glassware.

The “Sleek & Simple” leaflet approaches this trend by selecting glassware that is sustainable, functional and exudes quiet sophistication, allowing true flavours to shine.

1

### GET SLEEK GLASSWARE:

Choose clean, elegant glasses that showcase the drink.

2

### CRYSTAL-CLEAR ICE:

Use clear ice cubes that ensure optimal chilling and minimal dilution.

3

### QUALITY DRINKS:

Keep it simple with just a few good ingredients that taste great together.

4

### SIMPLE GARNISHES:

Add a small touch, nothing too fancy.

## KEEP IT SIMPLE WITH ONIS GLASSWARE

Minimalism in mixology is the new luxury. It is all about quality and precision rather than quantity and extravagance.

ONIS offers a wide range of glassware that reflects this approach: clean lines, balanced proportions and functionality. From sleek tumblers to light stemware, every piece is designed to enhance the drinking experience.

### GET INSPIRED BY OUR MINIMALIST GLASSWARE COLLECTION:

## MEET UPRIGHT

Designed for elegance and practicality, the Upright range fits perfectly into the sleek & simple cocktail trend. With its tall, slim shape and thin cham, it's ideal for sparkling cocktails, especially long drinks like Tom Collins or John Collins. This shape keeps the drink carbonated

longer by reducing its surface area in contact with the air, enhancing both its presentation and the overall drinking experience. With a focus on clean lines and a lightweight feel, Upright is all about effortless sophistication.

[SEE MORE DETAILS HERE!](#)

The product is designed with the ideal internal space to hold popular clear ice shapes, from large cubes and spheres to elongated spears. This ensures optimal chilling with minimal dilution, making it perfect for premium cocktail service.

## ICE FIT: FIND THE PERFECT GLASS FOR LARGE FORMAT ICE

The ICE FIT Feature was created to identify glassware with the ideal internal space to hold popular clear ice shapes, from big ice cubes and spheres to elongated spears for long drinks. This ensures optimal chilling

with minimal dilution and is perfect for a premium cocktail service.

Find our glasses suitable for the various types of ice through this feature in our catalog.

**KEN LOHMANN**  
 @ IT'S A DRINK

*"A glass needs to match the cocktail. When it comes to truly elegant glasses and those that are more about minimalism, the Levitas and Bespoke ranges are my choice."*

# STACK & SERVE

STACK SMART,  
SERVE BETTER

## NON STACKABLE GLASSES

### SPACE EFFICIENCY

Occupy more space on counters and shelves, often requiring additional racks or cabinets. This leads to inefficient use of bar space and can make your workspace feel crowded and disorganized.

### HANDLING PROCESS

Tend to clutter storage areas, making them harder to access. They are often stacked improperly, increasing the risk of accidents and making workspace less efficient.

### DURABILITY

Improperly stacked glasses can be unstable and break, leading to higher replacement costs and safety concerns for staff.

## STACKABLE GLASSES

### SPACE EFFICIENCY

Designed to fit neatly on top of each other, maximizing vertical space and keeping your bar organized.

### HANDLING PROCESS

Keep the bar organized and efficient, especially during peak hours. They provide a clean professional look to both storage and service areas, making it easy to retrieve the right glass when you need it.

### DURABILITY

Designed with secure stacking in mind, minimizing the risk of tipping or damage. Benefiting with ONIS Xtratuff treatment they are ideal for high traffic environments, ensuring long-lasting durability.

## FIND OUR STACKABLE GLASSES

ONIS offers a wide range of stackable glasses designed to meet the needs of modern bars. These glasses combine functionality, style and durability in every venue.

In order to easily identify our stackable ranges, ONIS developed a special feature as shown on the right. This feature is highlighted in our packaging, catalogue and other marketing materials, making it even easier to choose the right glassware for your bar.

## MEET ENIGMA

Enigma range is designed for those looking for reliable, modern and functional glassware. A complete series of five stackable tumblers, benefiting from ONIS Xtratuff treatment, making these tumblers essential for any venue.

[SEE MORE DETAILS HERE!](#)

## TOUGH GLASSES FOR TOUGH BARS

[CLICK HERE TO WATCH VIDEO](#)

Our stackable glasses benefit from ONIS Xtratuff treatment. This special thermal after process strengthens the upper portion of the glass, the area most vulnerable to breakage. It increases the resistance to thermal and mechanical shock which results in remarkably durable glassware with prolonged service life.

**BRUNO ACHADINHA**  
**@MANNY'S BAR LISBON**

*"ONIS stackable glasses allow us to have variety and elegance without worrying about storage space."*
