handmade & organic appeal

Forager by Robert Gordon is designed with a carefully applied reactive glaze that free-flows over each shape to create a unique finish that is different on every piece. Featuring an unglazed bottom, this collection highlights the richness of raw materials through exposed stoneware and offers a handmade & organic appeal. From the creator himself, Robert “Andy” Gordon, he compares the signature tray design to “tree bark once used to gather things such as forage seeds, berries, and roots from the forest”, hence its namesake, Forager. Unlike any other, these enduring & functional shapes are finished with a stamp of Andy’s handwritten signature and will enhance any foodservice presentation.
