Brian Landry Chef/Owner QED Hospitality The Kitchen Table Clermont, KY

Our restaurant, The Kitchen Table, is located on the Kentucky Bourbon Trail. When opening our restaurant, we wanted pieces that were upscale and comfortable, pieces that would highlight the nature of the bourbon trail. The Steelite products we selected are the perfect balance between high-end quality and comfort.

Jorge L. Feliz German President Karisma Dominicana & General Director Karisma Hotels & Resorts Punta Cana

In collaboration with Steelite, we developed a dinnerware and glassware product guide that is used for all of our restaurant concepts globally. The product catalog complements our Gourmet Inclusive Concept and allows us to provide a unique experience for our guests.

cleverly designed for your buffet presentation

D.W. Haber's Rolltop Chafers feature the acclaimed patented balance-cover mechanism which prevents the lid from slamming back. These stainless steel vessels have a clever condensation return which returns water back to the water pan. The chafers work well in any buffet occasion, and pair perfectly with the hinged and liftoff-lid marmites. Available in Tempo or Millennium, D.W. Haber chafers pair with a wide variety food pans to accommodate your foodservice needs.

chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a conveniently large glass view in the lid to increase visibility of the food. This features allows for fewer opens, thus keeping the heat in and the food remains at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

NSF certified and loaded with great features

Tested & approved by the NSF organisation, the Walco Idol™ NSF Chafer has an induction ready bottom and a slow closing hinge that ensures the lid will not slam shut during operation. A "dripless" design with ventilation allows condensation on the lid to flow back into the water pan as opposed to on the countertop. With built-in grooves for an NSF-approved serving spoon and tongs, service is convenient, handles won't fall into the food, and the lid closes perfectly to keep the heat in.

durable with efficient heating performance

D.W. Haber Marmites are the perfect choice for chefs and foodservice professionals who demand high-quality buffetware. These marmites are designed as a double boiler to provide efficient and reliable heating performance without burning, while also being durable and easy to clean. With their heavy-duty, welded stainless steel construction, D.W. Haber Marmites are built to withstand the rigours of commercial kitchen environments. The vessels also feature a sleek & modern design that is available with a hinged cover option and 3 recognisable leg shapes - round Tempo, square Tower, and classically elegant Millennium. Whether you are simmering soups, stews, or sauces, D.W. Haber Marmites are the ideal choice for buffet service.

reducing the spread of germs

Pouring a cup of coffee or juice just got easier with D.W. Haber's Touchless Taps. Simply press a cup against the dispenser to activate the flow and pull away once filled. The Touchless Plus is hands and drip-free, and its wide body targets the side of the glass and not the rim, which ultimately reduces the spread of germs. Made of 18/10 stainless steel, the spouts are resistant to rust and fit any D.W. Haber, and Creations urn or juicer on self-serve stations and buffets.

Induction

Commercial catering is easier with induction solutions from Steelite. The best alternative to open flame, induction technology utilises magnetic currents to heat pots, pans & chafing dishes to provide a safe & efficient cooking experience. Induction gives any foodservice operator the flexibility to host a variety of events, ensuring that food is cooked & served at the right temperature for maximum enjoyment. d.w.haber

cordless warming induction for use anywhere

The D.W. Haber Power Cell is a revolutionary solution for keeping food hot for extended periods of time. The sleek and elegant design makes it a stylish addition to buffets & food stations, and its cordless battery operation allows it to be used anywhere. The Power Cell has a 6-hour recharge time so it can be used for multiple meals per day, and it is a cost-saving solution as it compares to repetitive purchases of chafing fuel. The first of its kind, this induction unit is energy-efficient and operates quietly, ensuring that it won't disturb the ambiance of the setting.

maximum heat performance

The proper placement of any chafing fuel source is critically important to have maximum heat performance. With Hollowick Easy Heat® Chafing Fuels, the wick is adjustable to accommodate different temperature levels and the can stays cool for easy handling. Simply adjust the wick to change the heat output between standard, low and high, then place on the fuel holder or table beneath to properly heat the chafing dish.

consistent flame & adjustable heat

Easy Heat[®] liquid chafing fuels are the go-to choice for buffet service. With a consistent flame for even heat, the wicks are located outside the canister keeping the flame position the same as it burns and the can cool so servers can easily handle during service. The wicks are also easily adjustable to provide different levels of heat to suit operator needs. Comprised of Diethylene Glycol, Hollowick's Easy Heat® fuels are non-flammable and enclosed in a sealed canister to prevent spill accidents and reuse on separate occasions.

Custom Powder Coating

Create a unique buffet presentation with custom powder coat options on our stainless steel buffetware. Available in a textured or hammered finish and a wide variety of colours, high temperature powder coat is durable, dishwasher safe, hides fingerprints and creates a new fresh look on any buffet.

custom powder coating

Powder Coating is a popular option for buffet products in the commercial foodservice industry. It's a type of coating that is applied as a free-flowing, dry powder to the surface of a product. Powder coating creates a hard, durable finish that is resistant to scratches, chipping and fading, making it ideal for high volume use and a demanding buffet service environment. It also enables operators to tailor the colour & finish of chafing dishes, urns, or heat lamps to match their brand or decór. Available in a vast selection of colours or finishes, create a professional and cohesive look on any buffet service with custom powder coating. Contact us today to learn more!

Visual Display

Creating a visually appealing buffet display is crucial in the foodservice industry, as it is the first impression that guests will have of the food & service. At Steelite, we offer professional caters the right tools to create the perfect presentation every time. From rustic teak wood to modern, black teflon risers and acrylic bakery boxes to gastronorm platters, the possibilities are endless to create a well-crafted visual display.

sophistication for any setting

The Fusion Buffet System is a unique and versatile solution for your foodservice presentation. With multi-sized risers, juicers, and baskets, you can mix and match your display with the numerous wood & metal finishes available. Designed from reclaimed wood, the teak products are environmentally friendly and cost effective, while its natural properties make it resistant to heat, light and moisture. Resin, tempered glass or teak wood tiles can also be used to add new heights, while the 14" risers can be outfitted with universal inserts that make cooking and heating easier.

introducing the d.w. haber ice cell

The perfect solution for keeping your buffet food fresh and chilled for extended periods! This innovative chilling system is designed to keep food cold for at least 3 hours, ensuring freshness and quality. Keeping food at the right temperature is crucial to prevent bacterial growth and maintain its taste and texture. The D.W. Haber Ice Cell is specifically designed to fit the standard and low profile Fusion Gastronorm risers, available in 3 finishes: Ash Grey, Grey Wash, and Natural Teak wood.

1. Store the cooling blocks in the freezer overnight for the best results.

2. Place the cooling blocks in the BPA free tray, and set the temperature equalisers on top of the blocks to maintain even cold distribution.

DWFB20ICESET

Set includes: 1 Plastic Tray which fits into a Riser, 2 Cooling Blocks and 2 Buffer Pouches. Gastronorm Platters and Risers sold separately.
